Attention of Mr. Arthur Collins

Dear Mr. Collins:

I am sending you, under separate cover, a photograph of amateur station W2GOX and a sample of the daily log of the station.

The Collins 300A Transmitter has been giving excellent satisfaction and the results obtained have far surpassed my expectations. The note is always reported T-9 and the signal is frequently reported R-9 in Europe.

The sample log shows the high percentage of DX calls actually worked and gives some idea of the range of the signal, but can give but little idea of the real pleasure and many valued friendships which the transmitter has brought me.

With sincere wishes for your continued success, I am

Very truly yours

J. E. Preston
