## 20C ONE KILOWATT Transmitter

AT RIGHT  
300D

BELOW  
12E

Several new Collins transmitters and speech input assemblies are being manufactured for broadcast use. The 20C One Kilowatt Transmitter, the 300D One Hundred Watt Transmitter, and the 12E Speech Input Assembly are illustrated on this page. Greatest attention has been given to the fidelity, modern appearance, reliability and convenience of operation of this equipment. Complete details will be furnished on request.
