### 150BW TRANSMITTER ASSEMBLY

Transmitter Assembly 150BW employs the same equipment and has the same output power as the 150W, except that it has in addition, one 30B Modulator which in connection with suitable speech input equipment, provides a high powered phone transmitter, giving an undistorted fully modulated carrier of 150 watts.

**Price** — Complete, less tubes.....\$285.67

We are prepared to supply, on special order, higher powered transmitters similar in design to the 150W and 150BW, but employing two 203A's in push-pull, or two 852's in push-pull in the last stage, giving output powers of 300 watts and 500 watts respectively.
